

Name	Organization or Affiliation	Summary	Goal	Public Response
James Fujita		Supports continued investment to build subways and light rail. Recommends increasing commercial and housing development at station to increase ridership and investigating electric trolley buses with overhead wires.	Goal 8	Comment noted and shared with relevant departments.
Briana Fugitt		Inquires about updating or expanding County animal shelters.	None	Comment noted and shared with relevant departments.
Briana Fugitt		Inquires about updating recreational and public facilities including public restrooms at beaches and structures such as staircases at beaches.	Goal 6	Comment noted. Draft Action 21 addresses beach facility upgrades.
Briana Fugitt		Inquires about investigating toxicity at Santa Susana Labs and accountability for health impacts.	Goal 1	Comment noted. For cleanup status and questions, please refer to this California Department of Toxic Substances Control (DTSC) website: https://dtsc.ca.gov/santa_susana_field_lab/santasusanafielabfaq/ .
Wes Chuang		Recommends endorsing the Plant Based Treaty as a County.	Goal 10	Comment noted.
Jann Vendetti	Natural History Museum of Los Angeles County	Requests correction on the reference to the regional biodiversity in Goal 5 introduction.	Goal 5	Language will be revised.
Jann Vendetti	Natural History Museum of Los Angeles County	Requests clarification on the title of the callout on page 86 to reference biodiversity rather than endangered species, and recommends updating the number of distinct species in LA County to reflect current iNaturalist observations.	Goal 5	Language will be revised.
Jann Vendetti	Natural History Museum of Los Angeles County	Supports plant-based food options and draft Action 141.	Goal 10	Comment noted.
Jann Vendetti	Natural History Museum of Los Angeles County	Requests correction on the reference to the regional biodiversity in Goal 5 introduction.	Goal 5	Language will be revised.
Sam Butler	Individual	Supports Goal 5 - Thriving ecosystems, habitats, and biodiversity. Recommends pursuing initiatives to plant natives and replace turf grass.	Goal 5	Comment noted.
Sam Butler	Individual	Recommends prioritizing draft Actions 67 and 69.	Goal 5	Added draft Action 67 to Priority List.
Sam Butler	Individual	Recommends prioritizing native trees in draft Action 41.	Goal 2	Comment noted.
Sam Butler	Individual	Recommends prioritizing actions that limit development in high flood and fire risk areas.	Goal 3	Comment noted.
Sam Butler	Individual	Supports prioritizing water conservation.	Goal 9	Draft Action 116 on water conservation will be revised to a Priority Action.
Sam Butler	Individual	Supports Strategy 11B.	Goal 11	Comment noted.
Stephanie Popescu	Resident	Supports keeping Kenneth Hahn park open and accessible during the week.	Goal 6	Comment noted and shared with relevant department.
Maria Ballardo	Continuing Education	Inquires about safe fishing and plan updates	Goal 5	Comment noted. Please see change log for a summary of updates to the original plan.
Italia Lagunas	Nature 4 All	Supports Priority List.	None	Comment noted.
Chilin Huang	Concerned Residents of Rowland Heights	Opposes the use of SB 9 (HOME Act) for commercial development in residential areas	None	Comment noted and shared with relevant department.
Yvette Crayon	Geen Thumb . V. YOUTH & WRAPAROUND	Recommends creating a Community Audit Risk management committee to decrease misappropriation of funds.	Goal 12	Comment noted and shared with relevant department.
Kathy Schaeffer	Climate Reality Project, San Fernando Valley	Recommends including a commitment to eliminate the use of artificial turf in County-managed parks, recreation and schools as part of Strategy 5B draft Action 74.	Goal 5	Comment noted; please see draft Action 18 which will include consideration of materials such as artificial turf. Please also see the LA County Board Policy on Water Conservation (3.047) which restricts the use of artificial turf at County facilities.
Sharon Ungersma	San Fernando Valley Climate Reality Project	Recommends support for e-bikes including safety infrastructure, e-bike parking and programs to subsidize the purchase of e-bikes.	Goal 8	New micromobility action will be added.
Sharon Ungersma	San Fernando Valley Climate Reality Project	Recommends explicit goals for the 'Transit First' policy to make public transportation more reliable, safe, and clean.	Goal 8	Metro's Vision 2028 Strategic Plan includes efforts to make the bus system more reliable and cleaner: https://libraryarchives.metro.net/DB_Attachments/BP-Links/policy-2018-06-28-metro-vision-2028-strategic-plan.pdf
Sharon Ungersma	San Fernando Valley Climate Reality Project	Supports draft Action 92 and recommends prioritizing on-site renewable energy solutions and expanding financial incentives for households and small businesses to adopt clean technologies.	Goal 7	Comments noted. See draft Actions 22, 34, 35, 89, and 121 that address infrastructure, incentives, and technical support for decarbonization
Diana Weynand	Climate Reality Project San Fernando Valley Chapter	Supports draft Action 92 and recommends prioritizing on-site renewable energy solutions and expanding financial incentives for households and small businesses to adopt clean technologies.	Goal 7	Comments noted. See draft Actions 22, 34, 35, 89, and 121 that address infrastructure, incentives, and technical support for decarbonization

Andy Hattala	The Climate Reality Project: LA & SFV Chapters	Recommends adding or amending water conservation strategies to state: "Increase water security within LA County through expanded water recycling, enhanced stormwater and rainwater capture, and strengthened water conservation efforts." Recommends including specific actions related to: water recycling infrastructure development, expansion of stormwater and rainwater capture capacity, implementation of green infrastructure at County facilities, and promotion of green infrastructure adoption within the broader community.	Goal 2	See Strategy 2C that addresses creating an integrated and resilient water system. For more detail on the County's efforts to support local water resilience and green infrastructure investments, please see the County Water Plan, Parks Needs Assessment Plan, Community Forest Management Plan, and forthcoming County Heat Action Plan.
Susanne L Cumming	Sierra Club Ballona Coastal Group	Recommends switching from fireworks to drone shows.	Goal 5	Comment noted and shared with relevant department.
Heather Barker	California State University Long Beach	Recommends a goal dedicated to oceans, wetlands, and waterways.	Goal 5	Revised language in draft Action 64. Also see draft Action 71, Action 73, Action 60, and Action 28 on ocean and coastal protection.
Amanda Stemen	Sierra Club & FUNdaMENTAL Growth	Supports increasing green space and access to green space.	Goal 6	Comment noted.
Stephany Cartney	Black Women for Wellness	Recommends prioritizing draft Actions 14, 51, 149, and 152	Goal 1, Goal 3, Goal 11	Comments noted and shared with relevant departments. Action 149 will be made Priority Action.
Stephany Cartney	Black Women for Wellness	Recommends funding and investment in underresourced areas to address institutionalized environmental racism and environmental injustice.	Global	Comment noted.
Stephany Cartney	Black Women for Wellness	Recommends meaningful community engagement including close collaboration with community-based organizations (CBOs) and compensation for engagement.	Global	Comment noted. Draft Action 145 will address creating consistent guidelines and best practices for engagement, including incentives.
John Garside	Crop Swap LA	Recommends integration of urban farming efforts with funding streams such as Measure W, Measure R, Measure M, and Measure A.	Goal 3, Goal 10	Comment noted and shared with relevant departments.
John Garside	Crop Swap LA	Recommends expanding partnerships with urban farms to process and apply compost for local food waste.	Goal 10	Comment noted. Will be an implementation consideration.
John Garside	Crop Swap LA	Recommends expanding technical assistance and targeted procurement opportunities for community-based urban farms and related enterprises.	Goal 4	Comment noted and shared with relevant department.
John Garside	Crop Swap LA	Recommends recognizing urban agriculture as essential community infrastructure, including urban farm operators in emergency preparedness planning, neighborhood cooling strategies, and hazard mapping, and prioritizing farm sites for canopy expansion, hydration stations, and soil remediation support.	Goal 2	Comment noted. Will be an implementation consideration.
Estelle Reyes	LACI	Recommends including LACI's Green Jobs Regional Partnership in Strategy 7B.	Goal 4	Comment noted and shared with relevant departments.
Mary Hillemeier	TreePeople	Recommends using County buildings to exemplify best practices in native landscaping, fire preparedness, and water capture.	Goal 2	Comment noted. Please see draft Action 67.
Mary Hillemeier	TreePeople	Recommends partnering with community-based organizations to lead public awareness campaigns related to organic waste, native gardens, and canopy preservation and expansion.		Comment noted. Please see draft Action 152.
Mary Hillemeier	TreePeople	Recommends bypassing soil testing requirements where there is no potential for VOC such as depaving projects.	Goal 1	Comment noted.
Mary Hillemeier	TreePeople	Recommends more avenues for sustainable standards compliance and providing incentives for integrating nature into buildings and properties.	Goal 2	Comment noted.
Mary Hillemeier	TreePeople	Recommends using NYC Local Law 97 as a precedent for draft Action 120.	Goal 9	Comment noted.
Mary Hillemeier	TreePeople	Recommends designating oil fields as priority sites for conversion to public parkland, openspace, or ecological restoration.	Goal 1	Comment noted. Parks Needs Assessment Plus (PNA+) identifies oil fields as example priority areas for environmental restoration, and PNA+ implementation is identified in draft Action 72 and Action 80.
Mary Hillemeier	TreePeople	Recommends identifying or developing funding for oil field acquisition and conversion.	Goal 1	Comment noted. See Just Transition Strategy identified in draft Action 61 and Goal 4 call-out for additional details on this work.
Mary Hillemeier	TreePeople	Inquires how the plan will support the LA County ordinance requiring rental units to maintain a maximum indoor air temperature of no more than 82F°.	Goal 1	Actions to implement and support this ordinance will be incorporated into the County Heat Action Plan, referenced in OurCounty draft Action 27.
Mary Hillemeier	TreePeople	Recommends considering how the plan will support and work collaboratively with existing and forthcoming Heat Action Plans from state and local entities.	Goal 1	Comment noted.
Mary Hillemeier	TreePeople	The light blue text and thin letters are difficult to read.	Global	Revising design to improve readability.
Jessa Calderon	Sacred Places Institute for Indigenous Peoples	Recommends prioritizing draft Actions 148, 154, and 163.	None	Draft Action 148 will be made a Priority Action.

Jessa Calderon	Sacred Places Institute for Indigenous Peoples	Recommends including the Indigenous peoples of the area in draft Action 52.	Goal 3	Comment noted.
Jessa Calderon	Sacred Places Institute for Indigenous Peoples	Recommends working with Indigenous governments and Indigenous community members through draft Actions 53, 54, and 55.	Goal 3	Comment noted.
Jessa Calderon	Sacred Places Institute for Indigenous Peoples	Recommends uplifting the importance of consistency when communicating and working with Tribal Nations.	Goal 5	Comment noted.
Jessa Calderon	Sacred Places Institute for Indigenous Peoples	Recommends using the term naturalized or rematriate in place of rewilding in draft Action 75.	Goal 5	Comment noted. For consistency, terminology based on the County's Conservation and Natural Resources Element update and SB 1425.
Jessa Calderon	Sacred Places Institute for Indigenous Peoples	Recommends Strategy 6A ensure cultural activities take place safely.	Goal 6	Comment noted.
Jessa Calderon	Sacred Places Institute for Indigenous Peoples	Recommends reiterating the importance of California Native plants in Goal 10.	Goal 10	Comment noted.
Ana-Alicia Carr	Los Angeles Food Policy Council	Recommends expanding LAFPC Healthy Markets LA and Good Food Zones programs to unincorporated areas related to draft Action 59.	Goal 4	Comment noted.
Ana-Alicia Carr	Los Angeles Food Policy Council	Notes LAFPC convene the Institutional Food Waste Prevention Working Group and the Los Angeles Food Recovery Alliance related to draft Action 125.	Goal 9	Comment noted.
Ana-Alicia Carr	Los Angeles Food Policy Council	Recommends a Los Angeles County ordinance requiring all farmers markets in unincorporated Los Angeles to accept EBT.	Goal 10	New action on this will be added.
Ana-Alicia Carr	Los Angeles Food Policy Council	Recommends expanding the Good Food Zones program to unincorporated parts of the County related to draft Action 134.	Goal 10	Comment noted and shared with relevant department; will be considered for implementation of the action.
Ana-Alicia Carr	Los Angeles Food Policy Council	Recommends partnering with organizations serving highly impacted communities and address food security in excluded populations.	Goal 10	Comment noted and shared with relevant department; will be considered for implementation of the action.
Ana-Alicia Carr	Los Angeles Food Policy Council	Recommends refunding the County's ARP Market Match program in relation to draft Action 137.	Goal 10	Comment noted.
Ana-Alicia Carr	Los Angeles Food Policy Council	Notes LAFPC convenes the Regenerative and Urban Ag working group in relation to draft Action 138.	Goal 10	Comment noted.
Ana-Alicia Carr	Los Angeles Food Policy Council	Recommends the LA County Board of Supervisors implement the Good Food Purchasing program in relation to draft Action 139.	Goal 10	Comment noted.
Ana-Alicia Carr	Los Angeles Food Policy Council	Notes LAFPC is conducting a Food Hub Study in relation to draft Action 143.	Goal 10	Comment noted. This is a Priority Action.
Ana-Alicia Carr	Los Angeles Food Policy Council	Recommends establishing an Office of Urban Agriculture.	Goal 10	Comment noted.
Ana-Alicia Carr	Los Angeles Food Policy Council	Recommends creating an urban agriculture liaison within the County.	Goal 10	Comment noted and shared with relevant department.
Ana-Alicia Carr	Los Angeles Food Policy Council	Recommends creating a County-funded land remediation program.	Goal 10	Comment noted.
Ana-Alicia Carr	Los Angeles Food Policy Council	Supports the establishment of an agriculture water rate.	Goal 10	Comment noted and shared with relevant department.
Ana-Alicia Carr	Los Angeles Food Policy Council	Recommends establishing an urban agriculture grant program.	Goal 10	Comment noted and shared with relevant department.
Ana-Alicia Carr	Los Angeles Food Policy Council	Recommends developing clear pathways to land ownership/tenure between public land and producers.	Goal 10	Comment noted. This is part of the intent of draft Action 138.
Ana-Alicia Carr	Los Angeles Food Policy Council	Recommends providing additional technical support and resources for edible food generators and recovery organizations.	Goal 10	Comment noted and shared with relevant department.
Eleanor Murphy	South Bay Cities Council of Governments	Recommends consideration of post-COVID trends including decentralization and out-migration.	Global	Comment noted.
Eleanor Murphy	South Bay Cities Council of Governments	Recommends clarifying the role that subregional agencies will serve in plan implementation.	Global	Comment noted.
Eleanor Murphy	South Bay Cities Council of Governments	Notes that strategies developed for unincorporated communities in the South Bay complement the sustainability efforts underway in member cities.	Global	Comment noted.
Eleanor Murphy	South Bay Cities Council of Governments	Notes digital equity is an essential component of long-term sustainability.	Global	Comment noted and shared with relevant department.

Eleanor Murphy	South Bay Cities Council of Governments	Inquires how increasing perception of household disaster preparedness translates to progress.	Goal 1	This survey indicator of self-reported household preparedness from the Los Angeles County Health Survey (LACHS) administered through the Department of Public Health is an important available measure aligned with actions in Strategy 1D.
Eleanor Murphy	South Bay Cities Council of Governments	Notes that RHNA targets will change before 2045.	Goal 1	Language will be revised in clarifying footnote.
Eleanor Murphy	South Bay Cities Council of Governments	Recommends clarifying draft Action 9 from "exploring feasibility" to "establishing where applicable."	Goal 1	Language will be revised.
Eleanor Murphy	South Bay Cities Council of Governments	Recommends clarifying priority of developing affordable housing near transit, parks, and open space versus in every neighborhood.	Goal 1	Comment noted.
Eleanor Murphy	South Bay Cities Council of Governments	Recommends draft Action 19 and 20 have a near-term time horizon.	Goal 1	Both draft Actions 19 and 20 are Priority Actions to be initiated early, and are intended to be fully completed by the medium-term deadline.
Eleanor Murphy	South Bay Cities Council of Governments	Recommends aligning units for the baseline and target for County water supply target in Goal 2.	Goal 2	Language will be revised.
Eleanor Murphy	South Bay Cities Council of Governments	Clarify "integrate sea level rise with environmental justice to protect beaches and safety" in draft Action 28.	Goal 2	Action language will be revised along with revisions to call out on Coastal Resilience.
Eleanor Murphy	South Bay Cities Council of Governments	Inquires if housing locations that minimize environmental impacts are more important than housing in every neighborhood in relation to "The Sixth Revision of the Housing Element for the County of Los Angeles" call out in Strategy 2B.	Goal 2	For a full explanation of housing priorities, please go to the Sixth Revision of the Housing Element.
Eleanor Murphy	South Bay Cities Council of Governments	Inquires about technical assistance for renters as part of draft Action 35.	Goal 2	Comment noted; see draft Action 29 for assistance targeted at residents including renters.
Eleanor Murphy	South Bay Cities Council of Governments	Recommends identifying public subsidies for housing production in relation to Strategy 3A.	Goal 3	Comment noted.
Eleanor Murphy	South Bay Cities Council of Governments	Notes the challenge of building affordable housing at greater density.	Goal 3	Comment noted.
Eleanor Murphy	South Bay Cities Council of Governments	Notes that designing complete neighborhoods can limit sprawl in relation to Strategy 3A	Goal 3	Comment noted.
Eleanor Murphy	South Bay Cities Council of Governments	Notes low transit and cycling mode share in the South Bay means that transit-oriented development is unlikely to reduce auto use by residents in the South Bay in relation to draft Action 45.	Goal 3	Comment noted.
Eleanor Murphy	South Bay Cities Council of Governments	Notes that walk score reflects a high density of destinations that are often supported by people arriving by private vehicles in relation to draft Action 47.	Goal 3	Comment noted and shared with relevant departments.
Eleanor Murphy	South Bay Cities Council of Governments	Notes that walkability should consider factors such as extreme heat risks and topography in relation to draft Action 47.	Goal 3	Comment noted. Implementation of draft Action 27 will address heat risks as relates to walkability.
Eleanor Murphy	South Bay Cities Council of Governments	Clarify what forms of mobility need to be decriminalized in draft Action 48.	Goal 3	Language will be revised.
Eleanor Murphy	South Bay Cities Council of Governments	Notes that rent control should be a strategy to consider where feasible in relation to draft Action 51.	Goal 3	Comment noted.
Eleanor Murphy	South Bay Cities Council of Governments	Inquires whether green job targets are in addition to baseline or in total.	Goal 4	Language will be revised.
Eleanor Murphy	South Bay Cities Council of Governments	Notes that Strategy 4A does not address the impacts of AI.	Goal 4	New action on AI will be added.
Eleanor Murphy	South Bay Cities Council of Governments	Recommends Strategy 4A address business decarbonization and energy efficiency.	Goal 4	Comment noted.
Eleanor Murphy	South Bay Cities Council of Governments	Recommends more examples of past material recycling should be added to draft Action 58.	Goal 4	Comment noted and shared with relevant department.
Eleanor Murphy	South Bay Cities Council of Governments	Inquires if any actions in Goal 5 are directed at maintaining coastline integrity.	Goal 5	See draft Action 76 in addition to Action 28, as well as DBH's coastal resilience work: https://beaches.lacounty.gov/coastal-resilience/ . Comment shared with relevant department.
Eleanor Murphy	South Bay Cities Council of Governments	Inquires about sustainability measures for swimming pools and splash pads in the Goal 6 target.	Goal 5	Comment noted. Sustainability design and operations will be part of implementing draft Action 74 and Action 80.
Eleanor Murphy	South Bay Cities Council of Governments	Recommends draft Action 81 support micromobility instead of a focus on bicycles.	Goal 6	New micromobility action will be added.

Eleanor Murphy	South Bay Cities Council of Governments	Recommends discussing energy efficiency and decarbonization before renewables in Goal 7.	Goal 7	Comment noted. Energy efficiency and decarbonization actions can be found primarily in Strategy 2B and Strategy 9C.
Eleanor Murphy	South Bay Cities Council of Governments	Inquires where funding referenced in Goal 7 is coming from.	Goal 7	Most funding-related actions can be found in Strategy 12B.
Eleanor Murphy	South Bay Cities Council of Governments	Inquires if EV charging station target in Goal 7 is in addition to the baseline or total numbers.	Goal 7	Language will be revised.
Eleanor Murphy	South Bay Cities Council of Governments	Inquires about regulations or actions directed at non-County public agency sites for Strategy 7A.	Goal 7	All actions in Strategy 7A, except for draft Actions 89 and 93, extend beyond County facilities.
Eleanor Murphy	South Bay Cities Council of Governments	Requests to clarify "cost-effective" in relation to draft Action 89.	Goal 7	Cost effectiveness metrics may vary depending on a variety factors including funding availability, technology, state and federal regulations, among others.
Eleanor Murphy	South Bay Cities Council of Governments	Notes the opportunity for micromobility to play in local trips and the challenges with grid capacity and reliability in relation to strategy 7B.	Goal 7	New micromobility action will be added.
Eleanor Murphy	South Bay Cities Council of Governments	Inquires about analysis of impacts of heavy-duty electric vehicles on roadways in relation to Strategy 7B.	Goal 7	Comment noted and shared with relevant department.
Eleanor Murphy	South Bay Cities Council of Governments	Inquires about operations and maintenance costs for public transit in relation to Goal 8.	Goal 7	Goal 12 references identifying funding opportunities to help meet goals.
Eleanor Murphy	South Bay Cities Council of Governments	Recommends consideration of new transportation modes such as micromobility and microEV.	Goal 7	New micromobility action will be added.
Eleanor Murphy	South Bay Cities Council of Governments	Recommends that OurCounty prioritizes micromobility including e-bikes, e-scooters, and neighborhood electric vehicles (NEVs) in Goal 8.	Goal 7	New micromobility action will be added.
Eleanor Murphy	South Bay Cities Council of Governments	Recommends including Transportation Demand Management in Goal 8.	Goal 7	Draft Action 106 addresses TDM.
Eleanor Murphy	South Bay Cities Council of Governments	Inquires how the County will increase commute trips made by foot, bike, and micromobility given lack of progress between 2017 and 2023.	Goal 7	Comment noted.
Eleanor Murphy	South Bay Cities Council of Governments	Inquires how lowering transportation costs per the Transportation Cost Estimate will be funded and accomplished in relation to the Goal 8 target.	Goal 7	One of the ways in which transportation costs have decreased is through Metro's LIFE Program: https://lbt-preprod.la-metro-web.net/about/l-a-metros-low-income-far-e-is-easy-life-program-hits-over-250000-enrollments/
Eleanor Murphy	South Bay Cities Council of Governments	Notes the mode shift and challenges required to reduce parking in draft Action 105.	Goal 7	Comment noted and shared with relevant department.
Eleanor Murphy	South Bay Cities Council of Governments	Notes telecommuting as an important strategy as part of draft Action 105.	Goal 7	The County is leading by example on telecommuting by exploring hoteling options for County departments. See Draft Action 108.
Eleanor Murphy	South Bay Cities Council of Governments	Notes that the actions in the plan are not sufficient to reach Goal 8 VMT reduction targets based on existing modes and funding for transit.	Goal 7	The County is leading by example on telecommuting by exploring hoteling options for County departments. See Draft Action 108.
Eleanor Murphy	South Bay Cities Council of Governments	Request clarification for how parking strategies will increase active transportation in draft Action 105.	Goal 8	Draft Action 105 lists several potential options/strategies.
Eleanor Murphy	South Bay Cities Council of Governments	Recommends increasing parking at public transit including long-term parking in draft Action 105.	Goal 8	Comment noted.
Eleanor Murphy	South Bay Cities Council of Governments	Recommends advancing remote work as part of draft Action 108.	Goal 8	While the County is limited in what it can require all business and organizations to do, it is leading by example on telecommuting by exploring hoteling options for County departments.
Eleanor Murphy	South Bay Cities Council of Governments	Recommends encouraging all forms of micromobility and telecommuting as part of Strategy 8B.	Goal 8	Comment noted.
Eleanor Murphy	South Bay Cities Council of Governments	Inquires about recycling program outreach to non-county public agency buildings as part of draft Action 126.	Goal 9	Comment noted and shared with relevant departments.
Eleanor Murphy	South Bay Cities Council of Governments	Inquires about baseline data for greenhouse gas emissions associated with food in the Goal 10 target.	Goal 10	Comment noted. Targets based on best practice in other jurisdictions.
Eleanor Murphy	South Bay Cities Council of Governments	Recommends offering resources about plant-based and locally sourced food to community members as part of draft Action 141.	Goal 10	Comment noted and shared with relevant department. Will be an implementation consideration
Eleanor Murphy	South Bay Cities Council of Governments	Inquires about "climate grief" as part of draft Action 165.	Goal 12	Revised language.
Eleanor Murphy	South Bay Cities Council of Governments	Recommends determining operation and maintenance costs in addition to implementation costs as part of Strategy 12B Climate Budget.	Goal 12	Comment noted. Will be an implementation consideration.

Eleanor Murphy	South Bay Cities Council of Governments	Recommends plan only include action with defined funding sources.	Goal 12	Comment noted. Will be an implementation consideration.
Eleanor Murphy	South Bay Cities Council of Governments	Recommends including all forms of micromobility in the definition of micromobility and adding micromobility to the mode shift definition.	Goal 8	New micromobility action will be added.
Eleanor Murphy	South Bay Cities Council of Governments	Notes interest in new versus ongoing responsibilities for lead county entity and partners.	Global	Comment noted.
Eleanor Murphy	South Bay Cities Council of Governments	Recommends reflecting role of Councils of Governments throughout the plan.	Global	The Introduction "County and Regional Action" highlights the importance of collaboration for plan implementation.
Larry Smith	California State University, Long Beach	Notes that urbanism in Los Angeles has existed before the plan references including notes on Indigenous urbanity in Los Angeles County in the Late 19th and early 20th century.	Global	Comment noted and revisions will be made to Introduction.
Jeong-Hee Lim	Los Angeles Regional Water Quality Control Board	Notes use of both "short-term" and "near term" in Strategy 1A.	Goal 1	Language will be revised
Jeong-Hee Lim	Los Angeles Regional Water Quality Control Board	Recommends revising language in Monitoring Drinking Water Quality call-out in Strategy 1C to reflect protection of public health and clarifying the relationship between Federal MCLs and California MCLs in the appendix.	Goal 1	Language will be revised.
Jeong-Hee Lim	Los Angeles Regional Water Quality Control Board	Requests clarification on the units in the Water Supply Sources call-out in Strategy 2C and citing the page from the Los Angeles Water Plan where the numbers are sourced.	Goal 2	Language will be revised.
Jeong-Hee Lim	Los Angeles Regional Water Quality Control Board	Recommends changing the word "consumed in the Water Supply Sources call-out in Strategy 2C to avoid confusion with the ingestion and to explain the term "local recycled water."	Goal 2	Language will be revised.
Jeong-Hee Lim	Los Angeles Regional Water Quality Control Board	Notes the discrepancy between the 2017 baseline number for potable water demand between the 2019 OurCounty plan and the update for the Goal 9 target.	Goal 9	Comment noted. Baseline data updated from 2019 plan to focus on potable water demand.
Jeong-Hee Lim	Los Angeles Regional Water Quality Control Board	Recommends adding a definition of "recycled water" to the glossary aligned with the California Water Code section 13050(n).	Goal 2	Recycled water will be added to the glossary.
Ramine Ross	Western States Petroleum Association	Recommends conducting economic analysis of the impacts of fossil fuel transition on energy and fuel costs.	Goal 1 , Goal 7	Comment noted.
Ramine Ross	Western States Petroleum Association	Notes the plan references plans and ordinances that have not yet been adopted.	Global	Comment noted.
Ramine Ross	Western States Petroleum Association	Notes the plan contains several actions not under LA County purview. Recommends the plan focus on actions within County jurisdiction.	Global	Comment noted. See "Introduction" for explanation of scope of role of OurCounty plan.
Ramine Ross	Western States Petroleum Association	Recommends actions align with State goals.	Global	Comment noted.
Ramine Ross	Western States Petroleum Association	Recommends plan only include action with defined funding sources.	Global	Comment noted.
Kevin Burton	WeHo Bike Coalition	Request noting which action are aspiration and which are backed by County ordinance for actions increasing the use of bicycles in Strategy 8B.	Goal 8	Draft Action 110 regarding the Vision Zero Action Plan is a County-led effort. Draft Action 111 is in support of an existing Metro planning and implementation effort.
Paloma Bustos	Sunita Jain Anti-Trafficking Initiative (SJI)	Recommends stating that human trafficking can increase during and after climate disasters.	Global	Comment noted.
Paloma Bustos	Sunita Jain Anti-Trafficking Initiative (SJI)	Recommends adding anti-trafficking information and training to emergency preparedness programs.	Goal 1	Comment noted.
Paloma Bustos	Sunita Jain Anti-Trafficking Initiative (SJI)	Recommends coordinating with anti-trafficking experts and agencies when planning climate resilience strategies for high-risk communities.	Goal 1	Comment noted.
Paloma Bustos	Sunita Jain Anti-Trafficking Initiative (SJI)	Recommends adding references to human trafficking in the introduction as well Goals 1, 2, and 4.	Goal 1, Goal 2, Goal 4	Comment noted.
Paloma Bustos	Sunita Jain Anti-Trafficking Initiative (SJI)	Recommends adding "Day laborers, domestic workers, and individuals who lose jobs, housing, or transportation during disasters, increasing their risk of human trafficking" to Strategy 2A.	Goal 2	Language will be revised in the narrative.
Laura Gracia-Santiago	Communities for a Better Environment (CBE)	Recommends increase tree coverage at popular walking routes. Notes concern that tree canopy and green infrastructure targets have remained neutral and that the plan's approach to address tree canopy is insufficient.	Goal 1	Comment noted; please see the LA County Room To Grow Community Forest Management Plan (CFMP) for more detailed information.

Laura Gracia-Santiago	Communities for a Better Environment (CBE)	Recommends working with school in environmental justice neighborhoods to monitor and share air quality information through creative, community, centered, and culturally relevant methods.	Goal 1	Comment noted. This will be an implementation consideration.
Laura Gracia-Santiago	Communities for a Better Environment (CBE)	Recommends holding community discussion to identify potential truck routes through a Truck Route Master Plan and community benefits agreement.	Goal 8	Comment noted and shared with relevant department.
Laura Gracia-Santiago	Communities for a Better Environment (CBE)	Supports the SCAQMD Warehouse Indirect Source Rule 2305 and recommends strengthening the rule so more warehouses pay into the WAIRE to build out ZEV infrastructure and improve accountability by incorporating GPS routes in the required informational report.	Goal 7	Comment noted and shared with relevant department.
Laura Gracia-Santiago	Communities for a Better Environment (CBE)	Recommends working with small water districts that struggle to manage water contaminants through funding and community education. Recommends collaborating with the State Water Board for stronger regulations on contaminants including PFAS and microplastics.	Goal 2	Comment noted. See draft Actions 16 and 18 where that topic will be addressed. State entities are not named as Partners in the plan.
Laura Gracia-Santiago	Communities for a Better Environment (CBE)	Recommends creating a hotline for community members to report flooding and industry -runoff and including education about industry run-off in CERT trainings.	Goal 2 , Goal 1	Comment noted. Will be an implementation consideration for draft Action 152 and 153. See draft Action 19 on CERT training.
Laura Gracia-Santiago	Communities for a Better Environment (CBE)	Recommends adding an action to expand native nature-based and green spaces to mitigate funding, filter pollutants, and replenish the watershed.	Goal 1 , Goal 2	Comment noted; see draft Action 36.
Laura Gracia-Santiago	Communities for a Better Environment (CBE)	Notes that building decarbonization policies have benefits beyond GHG reductions but must be developed based in these principles of equity: transition LA to all electric energy generation, correct for environmental injustice, protect tenants from bill and rent increases, create high-road union career pathways. This relates to draft Actions 120, 121, and 123	Goal 9	Comment noted.
Laura Gracia-Santiago	Communities for a Better Environment (CBE)	Requests the County uphold full CEQA compliance, limit exemptions, provide funding to realize projects, and provide technical assistance to CBO's as part of draft Action 9.	Goal 3	Comment noted.
Laura Gracia-Santiago	Communities for a Better Environment (CBE)	Recommend draft Action 43 focus on affordable multi-family housing that meets community needs.	Goal 3	New housing actions will be added.
Laura Gracia-Santiago	Communities for a Better Environment (CBE)	Recommends expanding the need to uphold strong tenant protection, anti-displacement measures, and low, very-low, and extremely-low income housing. Recommends ensuring communities along the LA River are not displaced from LA river restoration and development.	Goal 3	Comment noted.
Laura Gracia-Santiago	Communities for a Better Environment (CBE)	Notes the importance of residential parking to certain communities members. Recommends limiting commercial parking, increasing car and vanpool programs and free public transit. Notes challenges in implementing expanding parking near transit due to zoning.	Goal 8	Comment noted.
Laura Gracia-Santiago	Communities for a Better Environment (CBE)	Supports community-led green streets and community engagement for potential tree planting locations as part of draft Actions 42 and 79. Recommends including an action that focuses on improving walkability.	Goal 2 , Goal 6	Comment noted. Walkability actions are included in Goal 3.
Laura Gracia-Santiago	Communities for a Better Environment (CBE)	Recommends building relationships with schools to develop resilience hubs and providing technical and financial assistance.	Goal 12	Language will be revised in Strategy 1D narrative and draft Action 24.
Laura Gracia-Santiago	Communities for a Better Environment (CBE)	Disagrees with increased policing of low income communities, and opposes support for Metro's congestion pricing pilot in draft Action 111.	Goal 8	See Draft Action 48 on decriminalization of mobility and transit. Draft Action 111 language will be revised.
Laura Gracia-Santiago	Communities for a Better Environment (CBE)	Opposes any expansion of autonomous vehicles in relation to draft Action 112.	Goal 8	Comment noted.
Laura Gracia-Santiago	Communities for a Better Environment (CBE)	Recommends including electric rigs and Community Health and Safety Plans for draft Actions 2, 4, and 10.	Goal 1	Comment noted. These are implementation considerations for the actions referenced and draft Action 61.
Laura Gracia-Santiago	Communities for a Better Environment (CBE)	Recommends enforcing oil and gas regulations under AB 631 for draft Actions 2, 4, and 10.	Goal 1	Comment noted. These are implementation considerations for the actions referenced and draft Action 61.
Laura Gracia-Santiago	Communities for a Better Environment (CBE)	Recommends collaborating with the cities to develop clean-up regulations as part of draft Actions 2, 3, and 10 including operator accountability, timeliness, high standard of remediation, and worker and community healthy safety standards.	Goal 1	Comment noted. These are implementation considerations for the actions referenced and draft Action 61.
Laura Gracia-Santiago	Communities for a Better Environment (CBE)	Recommends supporting the Director of Public Works via the Office of Oil and Gas to report to the board with analysis of SB 1137 and AB 1866 as part of draft Actions 2, 4, and 10.	Goal 1	Comment noted. This is an implementation consideration for draft Actions 2 and 61.
Laura Gracia-Santiago	Communities for a Better Environment (CBE)	Recommends regrouping a new Just Transition taskforce to engage with County departments on recommendations related to draft Actions 2, 4, and 10.	Goal 1	Comment noted. This is an implementation consideration for draft Action 61.

Laura Gracia-Santiago	Communities for a Better Environment (CBE)	Supports the expansion of solar panels and battery energy storage systems on existing County facilities and multifamily housing related to draft Actions 90, 91, and 93. Recommends full environmental assessment of energy projects. Opposes build out of hydrogen infrastructure and semiconductor facilities.	Goal 7	Comment noted.
Laura Gracia-Santiago	Communities for a Better Environment (CBE)	Opposes the use of hydrogen in residential and commercial spaces related to draft Action 94.	Goal 2 , Goal 7	Comment noted.
Laura Gracia-Santiago	Communities for a Better Environment (CBE)	Recommends defining small and local businesses and opposes streamlining permitting without specifically defining the types of businesses eligible under draft Action 59.	Goal 4	Comment noted. Implementation consideration for draft Action 59.
Laura Gracia-Santiago	Communities for a Better Environment (CBE)	Recommends outlining a clear direction for engaging with community to establish preventative members. Request clarification on "Zero Waste Certification" programs.	Goal 9, Goal 4	Comment noted and shared with relevant departments.
Laura Gracia-Santiago	Communities for a Better Environment (CBE)	Notes the negative environmental justice impacts of data centers in relation to draft Action 95.	Goal 7	Comment noted.
Jeremiah Owen	Acton Rural Town Council	Notes the bias towards health concerns in urban areas in Strategy 1A.	Goal 1	Narrative language will be revised.
Jeremiah Owen	Acton Rural Town Council	Requests the plan address inequities in the Measure W program as part of draft Action 36.	Goal 2	Comment noted and shared with relevant department.
Jeremiah Owen	Acton Rural Town Council	Notes consideration of rural residents outside municipal water districts for draft Action 37 and notes that local water targets can negatively impact rural residents by lowering the water table. Notes that rural residents dependent on wells are often not included in decision-making.	Goal 2	Comment noted and shared with relevant department.
Jeremiah Owen	Acton Rural Town Council	Requests data used to calculate the pool to people ratio in LA County.	Goal 6	Comment noted and shared with relevant department.
Jeremiah Owen	Acton Rural Town Council	Notes the challenges of programing and events related to draft Action 85 due to the cost of required fees and insurance.	Goal 6	Comment noted and shared with relevant department.
Jeremiah Owen	Acton Rural Town Council	Notes the disproportionate impact of utility scale generation and storage on rural residents.	Goal 9	Draft Action 90 language will be revised.
Jeremiah Owen	Acton Rural Town Council	Recommends suitable areas for renewable energy technology in draft Action 91 be equitably distributed throughout the County.	Goal 9	Comment noted and shared with relevant department.
Benjamin Lempert	Urban Environmentalists LA	Recommends adding specific housing production targets from the housing element and specific goals for missing middle housing types.	Goal 3	The RHNA targets are the same as in the 2019, and more specifics can be found in the Sixth Revision of the Housing Element, which is featured in a Goal 2 call out.
Benjamin Lempert	Urban Environmentalists LA	Recommends strengthening draft Action 43 on Missing Middle housing including allowing small multi-family housing, reducing parking requirements, streamlining permitting, and allowing the development of single-stair apartment buildings.	Goal 3	Draft Action 43 language will be revised and further specifics will be part of action implementation.
Benjamin Lempert	Urban Environmentalists LA	Recommends greater specificity in draft Action 45 related to density minimums near high-quality transit, housing production targets near high-frequency transit, height bonuses for affordable housing near transit, and by-right development permissions for transit-oriented development.	Goal 3	Comment noted and shared with relevant department.
Benjamin Lempert	Urban Environmentalists LA	Recommends eliminating parking minimums.	Goal 3	Comment noted.
Benjamin Lempert	Urban Environmentalists LA	Recommends integrating growth management with conservation.	Goal 1, Goal 3, Goal 5	Comment noted and shared with relevant department.
Barbara Hensleigh	Sierra Club Central Region Group	Supports strategy 6A. Notes disparities in park access and maintenance.	Goal 6	Comment noted.
Barbara Hensleigh	Sierra Club Central Region Group	Supports Strategy 6B and notes multiple functions of parks.	Goal 6	Comment noted.
Barbara Hensleigh	Sierra Club Central Region Group	Supports Goal 7 and recommends a democratic approach to park maintenance.	Goal 7	Comment noted.
Barbara Hensleigh	Sierra Club Central Region Group	Supports draft Action 74 and notes that parks should be a collaboration between city, county, and state governments.	Goal 5	Comment noted.
Matt Wickersham	Sentinel Peak Resources California	Opposes the elimination of fossil fuel production including draft Action 10.	Goal 1	Comment noted.
Matt Wickersham	Sentinel Peak Resources California	Opposes draft Actions 2 and 3 as unnecessary and inconsistent with statewide regulations.	Goal 1	Comment noted.

Angela Bai	Los Angeles for Resilient and Healthy Homes Coalition	Supports the adoption of a Building Performance Standard and recommended programs to support buildings meet the standards including technical assistance and funding.	Goal 9	Comment noted.
Angela Bai	Los Angeles for Resilient and Healthy Homes Coalition	Supports draft Action 32 and Action 120.	Goal 2, Goal 9	Comment noted.
Angela Bai	Los Angeles for Resilient and Healthy Homes Coalition	Recommends specifying that capital costs from climate design guidelines in draft Action 33 not be passed on to tenants.	Goal 2	Comment noted.
Angela Bai	Los Angeles for Resilient and Healthy Homes Coalition	Recommends specifying that single-family homeowners and commercial and residential tenants have decision-making power in the retrofit process under draft Action 35.	Goal 2	Comment noted.
Angela Bai	Los Angeles for Resilient and Healthy Homes Coalition	Recommends prioritizing disadvantage communities for building decarbonization retrofit funding and expanding the range of retrofits eligible for public funding to include prerequisites to electrification in draft Action 121.	Goal 9	Comment noted and shared with relevant department.
Angela Bai	Los Angeles for Resilient and Healthy Homes Coalition	Supports draft Actions 22, 26, 34, 88, 89, 93, and 123.		Comment noted.
Angela Bai	Los Angeles for Resilient and Healthy Homes Coalition	Recommends that development of renewable energy facilities do not contribute to displacement, local harms, or safety concerns in draft Action 90.	Goal 7	Comment noted and shared with relevant department.
Angela Bai	Los Angeles for Resilient and Healthy Homes Coalition	Recommends that development of renewable energy facilities do not contribute to displacement, local harms, or safety concerns in draft Action 91.	Goal 7	Comment noted and shared with relevant department.
Angela Bai	Los Angeles for Resilient and Healthy Homes Coalition	Support draft Actions 6, 9, 92, and 30.		Comment noted.
Angela Bai	Los Angeles for Resilient and Healthy Homes Coalition	Recommends adding a plan to preserve utility rate affordability for low-income households during decarbonization as part of draft Action 15.	Goal 1	Comment noted.
Angela Bai	Los Angeles for Resilient and Healthy Homes Coalition	Recommends adding tenant protections and labor standards to draft Action 17.	Goal 1	Comment noted and shared with relevant department.
Angela Bai	Los Angeles for Resilient and Healthy Homes Coalition	Recommends adding enforcement actions and community advisory to the County Heat Action Plan in draft Action 27.	Goal 2	Comment noted.
Angela Bai	Los Angeles for Resilient and Healthy Homes Coalition	Recommends developing whole home hazard retrofit programs with robust community feedback and co-design.	Goal 2	Comment noted and shared with relevant department.
Angela Bai	Los Angeles for Resilient and Healthy Homes Coalition	Supports draft Actions 46, 49, 50, 51, and 52.	Goal 4	Comment noted.
Angela Bai	Los Angeles for Resilient and Healthy Homes Coalition	Recommends new affordable housing in draft Action 13 not result in loss of existing affordable housing and new housing build near amenities should be affordable, designed with community, and not result in displacement.	Goal 1	Comment noted and shared with relevant department.
Angela Bai	Los Angeles for Resilient and Healthy Homes Coalition	Support draft Actions 62, 63, and 64.	Goal 4	Comment noted.
Angela Bai	Los Angeles for Resilient and Healthy Homes Coalition	Recommends a public workforce administered by public agencies as part of draft Action 58.	Goal 4	Comment noted and shared with relevant department.
Angela Bai	Los Angeles for Resilient and Healthy Homes Coalition	Recommends that public support, assistance, or subsidies for small businesses lead to high quality jobs with family-sustaining wages and good benefits.	Goal 4	Comment noted and shared with relevant department.
Angela Bai	Los Angeles for Resilient and Healthy Homes Coalition	Recommends implementing effective workplace development pathways before workers are displaced as part of draft Action 61.	Goal 4	Comment noted and shared with relevant department.

Carlos Davidson	Fossil Free California	Recommends adding a new action to divest County investments from fossil fuels.	Goal 7	Comment noted and shared with relevant department.
Brian Johsz	BizFed	Emphasizes the need for affordability.	Global	Comment noted.
Brian Johsz	BizFed	Notes uncertainty from yet-to-be adopted ordinances.	Global	Comment noted.
Brian Johsz	BizFed	Notes challenges in tying the plan to mandates from other agencies and the impacts on businesses.	Global	Comment noted. See the Introduction "County and Regional Action" for a further explanation of the approach.
Brian Johsz	BizFed	Recommends aligning with state and regional climate goals.	Global	Comment noted.
Brian Johsz	BizFed	Recommends avoiding unfunded mandates.	Global	Comment noted.
Brian Johsz	BizFed	Recommends including business input in development of the plan.	Global	Comment noted. Business stakeholders invited and attended workshops.
Madeleine Siegel	LA Waterkeeper, Pacoima Beautiful, Conservation Corp of Long Beach, Holos Communities, LA Neighborhood Land Trust	Recommends specifying an order or magnitude investment into multi-benefit water management solutions in draft Action 36.	Goal 2	Comment noted and shared with relevant department. See also Goal 2 Target on depaving.
Madeleine Siegel	LA Waterkeeper, Pacoima Beautiful, Conservation Corp of Long Beach, Holos Communities, LA Neighborhood Land Trust	Supports Strategy 2D and recommends an Urban Forest Management Plan include resources and workforce training to maintain urban forests.	Goal 2	Comment noted. Community Forest Management Plan provides additional details on resources and workforce training.
Madeleine Siegel	LA Waterkeeper, Pacoima Beautiful, Conservation Corp of Long Beach, Holos Communities, LA Neighborhood Land Trust	Support draft Action 42 and depaving generally. Recommends CSO work with Public Works and the Safe Clean Water Program	Goal 2	Comment noted and shared with relevant department.
Madeleine Siegel	LA Waterkeeper, Pacoima Beautiful, Conservation Corp of Long Beach, Holos Communities, LA Neighborhood Land Trust	Support draft Action 44. Recommends creating habitat conservation easements in high climate-hazard areas.	Goal 2	Comment noted and will be considered as part of implementation planning, particularly for Strategies 3D and 5B.
Madeleine Siegel	LA Waterkeeper, Pacoima Beautiful, Conservation Corp of Long Beach, Holos Communities, LA Neighborhood Land Trust	Supports draft Action 53. Recommends regularly updating climate projections using up-to-date sources.	Goal 3	Comment noted.
Madeleine Siegel	LA Waterkeeper, Pacoima Beautiful, Conservation Corp of Long Beach, Holos Communities, LA Neighborhood Land Trust	Supports mixed-use neighborhoods in Strategy 3B.	Goal 3	Comment noted.
Madeleine Siegel	LA Waterkeeper, Pacoima Beautiful, Conservation Corp of Long Beach, Holos Communities, LA Neighborhood Land Trust	Recommends that mixed-use neighborhoods in Strategy 3B incorporate multi-benefit design.	Goal 3	Comment noted.
Madeleine Siegel	LA Waterkeeper, Pacoima Beautiful, Conservation Corp of Long Beach, Holos Communities, LA Neighborhood Land Trust	Recommends using multi-benefit scoring to identify properties viable for affordable housing. Notes Infrastructure Justice for LA coalition is working a a scorecard methodology to index multi-benefit climate resilient infrastructure related to draft Action 46.	Goal 3	Comment noted.
Madeleine Siegel	LA Waterkeeper, Pacoima Beautiful, Conservation Corp of Long Beach, Holos Communities, LA Neighborhood Land Trust	Notes importance of alignment across government and sectors and recommends developing intergovernmental engagement processes and standards.	Global	See Goal 11 for actions related to engagement processes.

Madeleine Siegel	LA Waterkeeper, Pacoima Beautiful, Conservation Corp of Long Beach, Holos Communities, LA Neighborhood Land Trust	Recommends committing to the creation of managed land buffers in high climate-hazard areas in draft Action 57 and including a timeline for implementation.	Goal 3	Since this is a new action, there is a need to assess feasibility of this approach within the context of our region.
Madeleine Siegel	LA Waterkeeper, Pacoima Beautiful, Conservation Corp of Long Beach, Holos Communities, LA Neighborhood Land Trust	Supports partnering with CBOs, educational institutions, and workers with workforce development opportunities in draft Action 62.	Goal 4	Comment noted. In addition to draft Action 62, see also draft Actions 68 and 153.
Madeleine Siegel	LA Waterkeeper, Pacoima Beautiful, Conservation Corp of Long Beach, Holos Communities, LA Neighborhood Land Trust	Recommends separate rural and urban categories for conserving land in the Goal 5 target.	Goal 5	Comment noted. PNA+ implementation (draft Actions 72 and 80) will increase land conservation and restoration in both urban and rural areas.
Madeleine Siegel	LA Waterkeeper, Pacoima Beautiful, Conservation Corp of Long Beach, Holos Communities, LA Neighborhood Land Trust	Recommends draft Action 56 build on the partnership between Public Works and the Metropolitan Water District to pilot landscape transportation projects.	Goal 3	Comment noted and shared with relevant department.
Madeleine Siegel	LA Waterkeeper, Pacoima Beautiful, Conservation Corp of Long Beach, Holos Communities, LA Neighborhood Land Trust	Recommends prioritizing uplifting existing river corridor and watershed planning initiatives in draft Action 57 rather than initiative new plans.	Goal 3	Draft Action language will be revised.
Madeleine Siegel	LA Waterkeeper, Pacoima Beautiful, Conservation Corp of Long Beach, Holos Communities, LA Neighborhood Land Trust	Recommends incentivizing property owners to replace existing parking with nature based solutions in draft Action 105.	Goal 8	Comment noted and shared with relevant department.
Madeleine Siegel	LA Waterkeeper, Pacoima Beautiful, Conservation Corp of Long Beach, Holos Communities, LA Neighborhood Land Trust	Recommends banning artificial turf in Strategy 9A.	Goal 9	Comment noted. See draft Action 18 which will include consideration of materials such as artificial turf. Please also see the LA County Board Policy on Water Conservation (3.047) which restricts the use of artificial turf at County facilities.
Madeleine Siegel	LA Waterkeeper, Pacoima Beautiful, Conservation Corp of Long Beach, Holos Communities, LA Neighborhood Land Trust	Recommends accelerating the timeline for the Goal 9 target for reducing potable water demand to 70 gallons per person per day from 2045 to 2035.	Goal 9	Comment noted. Target is aligned the LA County Water Plan goals.
Madeleine Siegel	LA Waterkeeper, Pacoima Beautiful, Conservation Corp of Long Beach, Holos Communities, LA Neighborhood Land Trust	Recommends creating an all-call bench of community-based organization to support County engagement efforts as part of draft Action 145.	Goal 1	Comment noted. Will explore through implementation of draft Action 145 and 166.
Madeleine Siegel	LA Waterkeeper, Pacoima Beautiful, Conservation Corp of Long Beach, Holos Communities, LA Neighborhood Land Trust	Recommends creating a centralized online platform as part of draft Action 157 to provide regulatory assistance to project developers and connect developers to relevant agencies.	Goal 11	Comment noted and shared with relevant departments.
David Diaz	Active SGV	Recommend adjusting RHNA housing production in Goal 1 match the RHNA 6th cycle and targets for 2030, 2035, and 2045 be adjusted based on forthcoming RHNA cycles.	Goal 1	Language will be revised in clarifying footnote.
David Diaz	Active SGV	Recommends extending measures for sensitive uses to within 1,000 feet of major sources of pollution in draft Action 1.	Goal 1	Comment noted and shared with relevant department.
David Diaz	Active SGV	Recommends increasing the canopy cover target in Goal 2 to 26%.	Goal 2	Comment noted. See the LA County Room to Grow Community Forest Management Plan (CFMP) for more details.
David Diaz	Active SGV	Recommends devising guidelines for tree maintenance to prioritize canopy growth.	Goal 2	Comment noted.

David Diaz	Active SGV	Recommends including a goal that addresses indoor air quality.	None	Comment noted. See draft Action 29, Action 92, and Action 120 that will address this issue.
David Diaz	Active SGV	Recommends a multibenefit approach to the River Corridor Master Plans proposed in draft Action 78 and supports the SGV Greenway Network.	Goal 5	Comment noted and shared with relevant department.
David Diaz	Active SGV	Recommends including completion dates or milestones for draft Action 81 supporting the County's Bicycle Master Plan.	Goal 6	See Bicycle Master Plan for more detailed implementation milestones.
David Diaz	Active SGV	Recommends removing green hydrogen from draft Action 94.	Goal 7	Comment noted. Action addresses County policies on emerging technology rather than feasibility of technology itself.
David Diaz	Active SGV	Recommends including a variety of ZEV devices to draft Action 102.	Goal 7	New micromobility action will be added.
David Diaz	Active SGV	Recommends setting a goal for completing a percentage of the bicycle master plans and number of bike lanes created.	Goal 8	Comment noted.
David Diaz	Active SGV	Recommends that the County support local cities to complete their adopted bike, mobility, and pedestrian plans.	Goal 8	Comment noted.
David Diaz	Active SGV	Recommends that the County advocate for funding and rule change that would make it easier for the County and local municipalities to improve transportation infrastructure similar to what is proposed in the plan regarding advocacy at the CPUC.	Goal 8	New micromobility action will be added.
David Diaz	Active SGV	Requests clarification on auto/single occupancy travel mode in relation to Transportation Cost Index	Goal 8	The Transportation Cost Index reflects the average share of household income spent on transportation, including both single-occupancy vehicle (SOV) travel and transit use. The figure is weighted by the frequency of use across modes. As households shift away from SOV travel toward more sustainable and cost-effective options, such as transit, biking, or walking, we anticipate a corresponding decrease in overall transportation costs. Paired with other targets focused on reducing vehicle miles traveled (VMT) and increasing mode shift, this metric will help track how changes in travel behavior affect household affordability over time.
David Diaz	Active SGV	Recommends including a goal about serious injuries in addition to traffic-related fatalities.	Goal 8	Draft Action 110 focuses on implementation of Vision Zero, which includes elimination of severe injury as a key objective.
Ryan Jackson	LA Compost	Recommend emphasizing "local" processing in Draft Action 126 with suggested lang	Goal 9	Comment noted and shared with relevant department. Local approaches is inclusive to Draft Action 126 and will be considered during implementation.
